Changes

# Colour, Markdown, JSON & jQuery

- Colour
  - Code Represents
- Markdown
  - Markmap
- JSON file for Drums
- Web Page Components

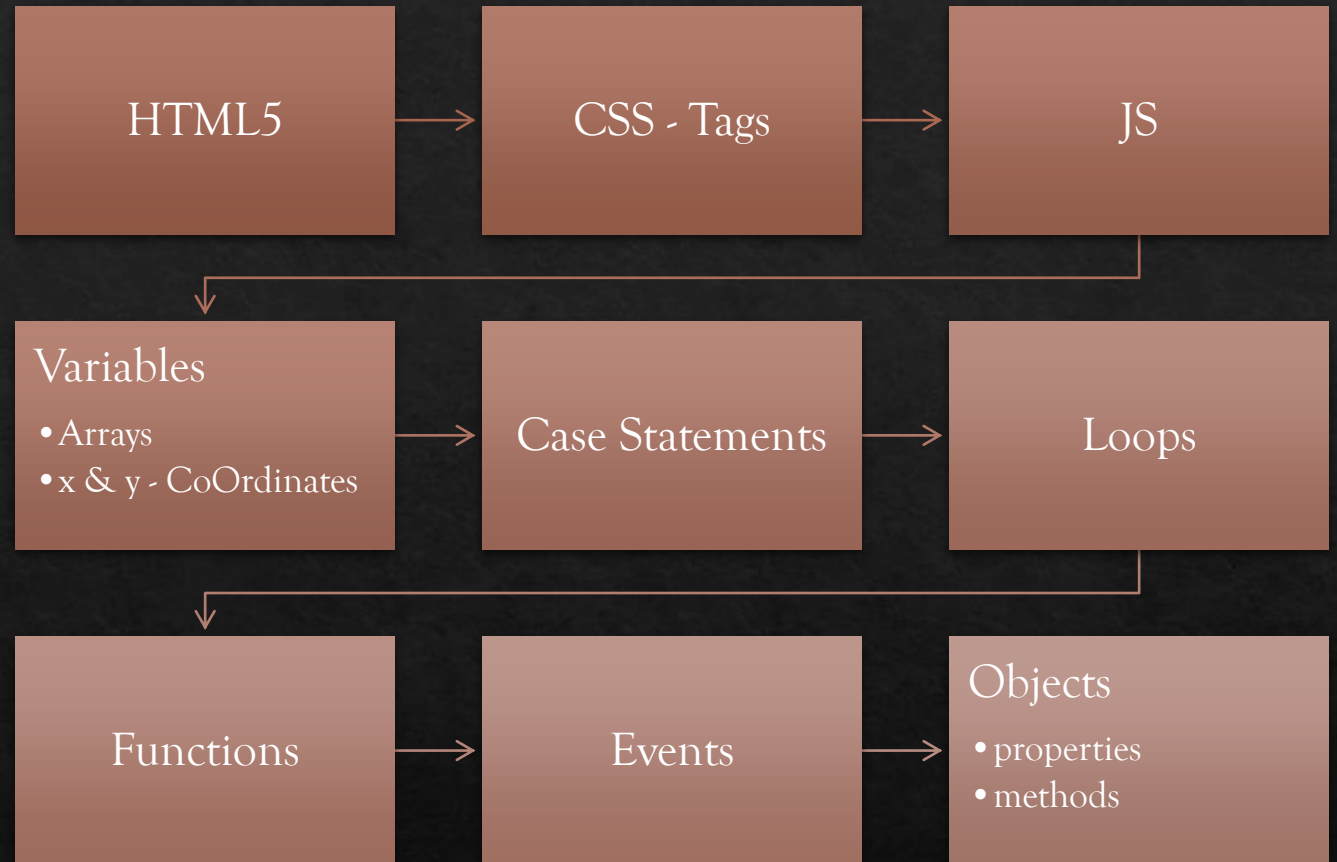

# Modern Web

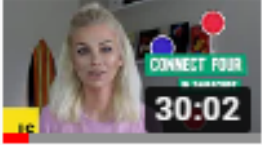

- OnLine Resources
- "NoCode"
- JAMStack
- Framework
- JavaScript

# HTML5/CSS/JS

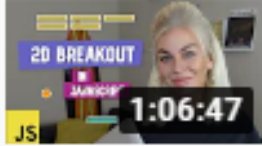

# Web Based Games

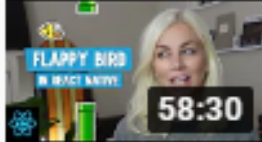

**Connect Four in JavaScript**  
Code with Ania Kubów  
30:02

**Space Invaders in JavaScript (no-nonsense version!)**  
Code with Ania Kubów  
44:45

**2d Breakout Game in JavaScript**  
Code with Ania Kubów  
1:06:47

**Flappy Bird in React Native**  
Code with Ania Kubów  
58:30

- Exercises
  - Play the game with physical objects and act out the logic
  - Change Rules or Combine Games

**Doodle Jump in JavaScript**  
Code with Ania Kubów  
50:42

**Jump and Slide in JavaScript**  
Code with Ania Kubów  
24:15

**BATTLESIPS in JavaScript**  
Code with Ania Kubów  
1:39:33

**We make FLAPPY BIRD + DEPLOY it on IPFS in 1min! Built in JavaScript, HT...**  
Code with Ania Kubów  
42:43

# Canvas

- The HTML `<canvas>` element is used to draw graphics, on the fly, via JavaScript.
- The `<canvas>` element is only a container for graphics. You must use JavaScript to actually draw the graphics.
- Canvas has several methods for drawing paths, boxes, circles, text, and adding images.

Phaser 3 & Tiled – see YouTube

# Phaser – Images & Levels
